

Eight students recently completed our Edu Care Programme and a certified two-day Level 1 First Aid course to equip them to become education assistants at crèches and day care centres, in children’s playgroups, and to work as au pairs. During the 13-week programme our students cover a range of important topics like child development, perception challenges, age-appropriate creative activities, literature for different stages of childhood development, baby care, and preparing a balanced meal. They also complete a work-integrated learning opportunity at an Educare institution to gain valuable practical experience in the classroom. Please contact our Placement Bureau Manager, Sinazo Gosani, at [employ@bergzicht.org.za](mailto:employ@bergzicht.org.za) for a copy of the CV of the student/s you are interested in employing and to arrange a meeting with the prospective employee/s at Bergzicht Training’s offices.
